APPRENTICESHIP CAROLINA™
SC TECHNICAL COLLEGE SYSTEM

Our Mission

Making certain all employers in South Carolina have access to information and consultative services, at no charge, regarding sponsorship of a demand-driven registered apprenticeship program.

How it Works

Apprenticeship Consultants work directly with companies to walk them through the registration process and to develop a customized apprenticeship program for their specific workforce needs. Programs are comprised of **3 key components**; Supervised On-the-job Learning, Job-related Education and a Scalable Wage.

Tax Credits

Once registration is complete companies are eligible for a **$1,000 tax credit** per year for up to four (4) years.

Supervised On-the-job Learning

Job-related Education

Scalable Wage

SC Apprenticeship Initiative Grant (SCAI)

Available for: Manufacturing, information technology and professional services companies with registered apprenticeship programs in South Carolina.

Funding Availability
$12,500 per company location
$2,500 per apprentice

Grant will be used to fund Apprenticeship scholarships for training conducted by the technical colleges as well as a Return on Investment (ROI) Study through the University of South Carolina, Moore School of Business.

Targeted Industries / NAICS Codes
Manufacturing (31-33)
Professional Services (54)
Information (51)

Industry/Occupations (ONET Codes)
Engineering (17-0000) Installation, Maintenance & Repair (49-0000)
Production (51-0000)
Computers (15-1100)
Business/Finance (13-0000)
Design/Media (27-1000 & 3000)

Goals of the Program

- To add 1,000 registered apprentices in the targeted high-tech and high-growth industries.
- Increase access to post-secondary credentials for apprentices, that include underrepresented populations, in targeted industries.
